[Zk Access 5.0 Software Update](#)

The screenshot displays the ZKTeco software interface for configuring access levels. The interface is divided into several sections:

- Left Sidebar:** A navigation menu with options: Access, Time Zones, Holidays, Door Settings, Access Levels, Anti-Passback, Personnel Group, Multi-Card Opening, Real-Time Monitoring, Map, and Advance Access.
- Top Section:** Fields for "Access Level Name" and "Access Control Time Zone".
- Unauthorized Doors:** A table with columns for checkboxes, Door Name, and Device Name. Two rows are visible: "IN-1" with device "IN" and "OUT-1" with device "OUT".
- Authorized Doors:** A table with columns for checkboxes, Door Name, and Owned Device. It is currently empty.
- Unauthorized Personnels:** A table with columns for checkboxes, Person ID, First Name, Last Name, Card Number, and Department. It lists 15 personnel.
- Authorized Personnels:** A table with columns for checkboxes, Person ID, First Name, Last Name, Card Number, and Department. It is currently empty.

| Unauthorized Doors | Door Name | Device Name |
|--------------------|-----------|-------------|
| 1                  | IN-1      | IN          |
| 2                  | OUT-1     | OUT         |

| Unauthorized Personnels | Person ID | First Name | Last Name | Card Nu... | Departmen... |
|-------------------------|-----------|------------|-----------|------------|--------------|
| 1                       | 1         | Dylan      |           |            | SECSA Co...  |
